

## **Global Conference on Sustainable Development and Innovation (Glosustain)**

**Conference Dates: August 11-23, 2025**

**Location: Online**

**Website: [glosustain.org](https://glosustain.org)**

About the Conference: The Global Conference on Sustainable Development and Innovation (Glosustain) brings together scholars, industry professionals, and policymakers to discuss the intersection of sustainability, hospitality and innovation.

Centered on the dual themes of Sustainable Development and Innovation and inspired by the tagline "Pioneering Innovation for a Sustainable and Thriving Global Future," this event will evaluate progress in sustainability and showcase innovation's power to reshape industries, technologies, and societies. Featuring keynote speeches from prominent thought leaders, virtual workshops, and peer-reviewed paper presentations, the conference fosters interdisciplinary exchange accessible globally. We will explore innovation both as a complement to sustainability and as a standalone force, with a special focus on sectors like hospitality, travel, and tourism. This conference aims to explore these aspects and promote cross-disciplinary dialogue that can advance both research and practical applications.

Accepted papers will be published in the conference proceedings with an ISBN, enhancing contributors' global reach.

Conference Themes: We invite original research papers, case studies, and conceptual works aligned with the themes of Sustainable Development and Innovation on the following topics, including but not limited to:

- Sustainable Technologies and Green Solutions: Advances in renewable energy, circular economy practices, and low-carbon technologies.
- Policy and Governance for Sustainability: Legislation, international agreements, and standards shaping sustainable futures.
- Business Model Innovation: Strategies embedding sustainability and creativity in corporate practices.
- Climate Resilience and Adaptation: Approaches to mitigate environmental risks and build resilient communities.
- Digital Transformation: Leveraging AI, IoT, and data analytics to enhance sustainability and innovation.
- Social Equity and Inclusive Development: Addressing poverty, inequality, and access through sustainable and innovative frameworks.
- Sustainable Urban Systems: Designing smart, eco-friendly cities for the future.
- Hospitality, Travel, and Tourism: Sustainable practices and innovations in these sectors to reduce environmental impact while enhancing cultural and economic benefits.
- Innovation as a Driver of Change: Disruptive ideas, emerging technologies, and novel methodologies redefining industries and societies beyond sustainability goals.

- Other Related Topics: Contributions that align with the themes but fall outside the listed categories.

1. Cultural Tourism and Sustainable Development
  - The role of cultural heritage in tourism
  - Sustainable tourism practices in cultural sites
  - Preserving cultural identities in the tourism industry
2. Hospitality and Culture
  - Cultural diversity in hospitality management
  - The influence of culture on customer service
  - Cross-cultural communication and tourism services
3. Technology and Innovation in Tourism
  - Digital transformation in tourism and hospitality
  - The role of VR and AR in enhancing cultural tourism
  - Smart tourism and the future of cultural experiences
4. Tourism, Cultural Exchange, and Globalization
  - Impact of globalization on local cultures
  - Cross-border tourism and cultural exchange programs
  - The influence of international tourism on local economies and communities
